

2006-142 Balustrade Chest

Sedate lines and dignified proportions played out in leather or wood makes this gallant chest of drawers unique. Drawer fronts skewered on continuous hardware are the primary accents. Ribbon stripe border with mahogany cathedral field. Hand-applied bead molding on nine drawers. This rather geometric form makes an ideal chest in the bedroom, a buffet in the dining room or a masterful anchor on a library wall. Function is sure to follow this impressive form.
