2006-270CA Cole Cane Arm Chair
2006-270CS Cole Cane Side Chair

Inspired by a regency classic, this award-winning design was pared down to its bare “bones” and done in black to give it graphic, contemporary appeal. But what really makes it sing, is the hand-painted porcelain bird medallion framed inside it’s perfectly rounded back. Hand caning on both the back and the saddle slung seat complete this unique mix of elements for a chair that’s hard to forget.
