

2006 -134 Jacques Writing Desk

Inspired by 1928 Paris, this writing desk is French Moderne at its best. The refined mahogany form is accented by a leather and hand-tooled top, in any Councilll leather. The concave front features curved pulls on either leather or mahogany drawer fronts. Square tapered legs terminate in ferrules. Hand-applied bead molding around drawers and case frame. From the mahogany ribbon stripe border on the top of its curving rails, to the tip of its little slippers, this design captures the French look made timeless by Jacques Emile Ruhlmann.
